

How Do You Maximize Your Success In The Direct Selling Industry?

Our personal experience in the direct selling industry, coupled with a successful history of developing innovative solutions for businesses engaged in direct selling has made Metrics Global, Inc. the provider of choice for this industry. With devotion to transparency and client service, Metrics Global has gained the trust and confidence of clients worldwide, and has earned a 99% client retention rate.

Join our client family and experience the difference true expertise can make.

Choosing The Right Merchant Services Partner Changes Everything

Choosing the right MSP can literally make the difference between success and failure in direct selling. “You guys just get it” is something we hear from our clients every day – especially those who were traumatized by their previous service providers.

It doesn't matter if you're considered an MLM, Party Plan, or Network Marketing business; from cosmetics and jewelry to software and dietary supplements, Metrics Global understands the unique needs of direct selling businesses.

- Save thousands of dollars on system software integration because Metrics Global is already integrated with all major direct selling software companies
- Eliminate down time and lost sales associated with system integration
- Reach more customers by accepting all major USA and international credit cards
- Receive account funding within 24 hours – half the time of most MSPs
- Direct deposit commission payments, thereby reducing your processing costs and administrative time

Complimentary Consulting

There is no doubt that merchant services can be confusing and overwhelming. With a myriad of options and new terminology, it's easy to miss potential opportunities or, worse, select an option that harms your business. That's why Metrics Global provides continuous consulting, free of charge; so you receive the best payment solution for your business, whether it's domestic or international.

Pay-in/Pay-out Capability

Metrics Global recognizes the requirement for those engaged in direct selling to have not only pay-in solutions, but also pay-out capabilities for rapid distribution of commissions and royalties. Our unique approach allows you to significantly reduce both payment processing costs and administrative time.

Individual Business Assessment

Many merchant service providers arbitrarily assign a blanket label of “high risk” to companies in the direct selling industry. This label can result in a push to offshore banking or unreasonable fees and restrictions that adversely affect your cash flow or your business as a whole. Metrics Global evaluates each business individually and offers the very best terms and rates appropriate for your individual circumstances.

Borderless Solutions Mean Seamless Transitions

Expanding your business beyond your country's borders is no obstacle when you choose a partner with worldwide expertise.

With Metrics Global, you have access to:

Strategic Planning

Ongoing planning, at no cost to you, ensures your business is in compliance with all domicile rules, and assists in the strategic location of business entities to obtain the most favorable interchange rates.

Cross-Currency Processing (CCP)

CCP allows US-based merchants to offer customers the option of paying for purchases in their own currency or in US dollars.

Multi-Currency Processing (MCP)

Enables merchants who operate outside of the USA to sell products and services in the customer's home currency, while receiving funds in their own currency.

Reliability

An advanced payment processing platform with unsurpassed reliability minimizes system downtime so accounts are funded without delay.

International Direct Deposit

With direct deposit to accounts across the globe, direct selling merchants can quickly and easily pay distributor/consultant commissions in almost any currency. This Metrics Global solution not only eliminates costly wire transfer and check fees, but also allows both the sender and the recipient to operate in their respective currencies so there are no currency conversion hassles or fees.

Pre-paid Cards

Ideal for smaller or lower volume businesses, these pre-paid MasterCard debit cards eliminate the costs and administrative burden of checks and wire fees to allow fast, easy payout of commissions. All transactions are conducted in local currency, and the recipient can either access the funds via ATM, or use the card anywhere MasterCard is accepted.

Non-Commissioned Representatives

Because no Metrics employee receives financial incentives for selling our products and services, you can be sure that the guidance you receive is determined only by your needs and what's best for your business.

Cash Advances

Metrics Cash Advance offers a viable, hassle-free alternative to bank loans. With \$10,000 to \$1MM available to approved businesses in as little as 3 days, you'll have the capital you need to maintain and grow your business.

As worldwide leaders in providing innovative, transparent payment solutions, Metrics Global, Inc. offers competitive rates, an exceptional level of service and intensive attention to client needs. Our focus on building trust and fostering long-term client relationships has made Metrics Global the world's premier partner for merchant services.
